Q14 Please enter your general feedback here

As discussion of this Code has been ongoing since 2016, I believe that there has been sufficient time for interested parties to comment. There has been numerous opportunities for the public to comment via Council meetings, calls to Council members, community forums, newspapers, etc. etc. I think people just want the Minister to make a decision and get this moving. I attended a joint Marion and Brighton Council meeting for residents at the end of last year and I don't think 35 people turned up despite the Councils promulgating the meeting. People want action from the Minister now. I do believe however that Marion Council's recent amendments to land south of Seacombe Heights has merit and could be accepted by the Minister without incurring another delay. The constant delays are just frustrating for those of us who want to get on with our lives and plan our futures accordingly. It's a plain fact that not everyone is going to be happy no matter what the Minister decides but no more delays, please. If these changes stimulate the South Australian economy this could be good for the economy at a time when building companies are going bust and the employment outlook for our young people is in dire straights.
