**Attachments:** image002.jpg; image001.jpg

Attention: Sarah Elding, Project Lead State Planning Policies

Thank you for the opportunity to contribute to the draft State Planning Policies.

Of particular interest to Boral Resources (SA) is the draft State Planning Policy 10: Key Resources.

Boral owns/operates a number of quarries within South Australia including Stonyfell, Linwood, Reynella, Salisbury and Para Hills.

Boral supports, in principle, the draft objective and policies, and requests that consideration be given to the inclusion of policy to maximise the use of future infill land on end of life quarries and mines that are close to the Adelaide CBD. This would enable the State to plan for future generations in South Australia with such benefits as more affordable housing and reduced transport and infrastructure costs.

Boral also supports the recommendations of the Resource Area Management and Planning (RAMP) Final Report, July 2014 and requests that these recommendations be acted upon through the planning reform process.
