Dear State Planning Commission

Thank you for the opportunity to provide a submission to the draft SA Planning Policies.

As a 31 year old young South Australian, I request that our built heritage is protected in the new SA Planning policies. It would be a shame to lose the heritage and charm in places which in some instances are being replaced with not thought-out, off the plan junk.

Having grown up in a suburb that does not have heritage protection, I find the area to be a mishmash with no continuity or appeal. Now living in an area with heritage protection, my aim would be to continue living where there are still backyards, birds and well-planned and building designed with quality. I like when new buildings respect the heritage character in an area and allow for front and back yards for birds and wild life. I want my kids to have a backyard to play in, and it would be such a shame to lose that opportunity for future generations.

Yours sincerely,

Joanne Manual
