---

Thank you for the opportunity to comment on the proposed ***Planning & Design Code, Phase 3***.

I live in Unley and would make a special request that you note, and advise the Minister Stephan Knoll, of my concern regarding the short timeframe around these proposals. Having received the proposal a fortnight ago, I have not had reasonable time to locate and read the online information provided.

I believe the implementation should be delayed allowing for detailed consideration of submissions and a further opportunity to comment on a revised draft Planning & Design Code that takes in all suburbs.

Best regards,

Mark Fischer

Unley, 5061
