This has not had enough time for consultation, and to consider the implications of a statewide code for remote areas. Many outlying areas have local conditions which cannot be adequately addressed with the proposed regulations. The proposed regulations have been developed too quickly, and more time and consideration is needed, and much more latitude to allow for local and/or cultural considerations in planning for local areas. A greater timeframe is required for developing this document. Furthermore, time to consider cultural, heritage and environmental/sustainable factors is needed to a greater degree. I request that you extend the timeframe and attend to the above.
