General Neighbourhood Zone

The current RB350 zone should be transitioned into the Suburban Neighbourhood Zone that will enable block sizes to remain unchanged. Black Forest (and part of Clarence Park) are due to be changed to 300m blocks reduced from 350m. The area already has a mix of medium density. Black Forest Primary School has its highest enrolment (for a number of years) for reception students at 75. The zone consists of a very small area of which these suburbs are included. The area is full of young families who choose to live in this area due to the size of the blocks and character homes. The demand in this area is for larger size blocks with family homes and it seems utterly ridiculous this area is surrounded by suburbs maintaining 350m sized blocks and this area is not. If we had known this when we bought our house less than 18 months ago we would have stayed where we were or bought elsewhere. Setbacks should not be reduced, its lovely not to hear the goings of my neighbours and their visitors with minimal offstreet parking required.
