Subject: Draft_Planning_and_Design_Code_for_South_Australia

Categories: Red Category

With regards to the proposed rezoning, it is essential that current areas with natural habitat and ecosystems are preserved and safeguarded from additional stress. South Australia is already haemorrhaging ecosystems and good quality native vegetation so that many habitats and species of plants and animals are destined to extinction.

National Park and Wildlife National Parks, Conservation Parks, Recreation Parks, Heritage Agreements, ForestrySA Native Vegetation Reserves, Sanctuaries and other public land with native vegetation must remain zoned as Conservation and not rezoned Rural.

Thank you.
