Subject: Proposed rezoning of National Parks, Conservation Parks, Recreation Parks etc. as 'Rural'

Categories: Red Category

To whom it may concern.

I write to you demanding all National Park and Wildlife National Parks, Conservation Parks, Recreation Parks, Heritage Agreements, ForestrySA Native Vegetation Reserves, Sanctuaries and other public land with native vegetation **remain zoned as Conservation** and not rezoned Rural.

This is a travesty on nature, biodiversity and our environment. We have so little land left suitable for our flora and fauna and to rezone as 'rural' implies this re-zoned land will become available for agriculture, logging, mining, dumping, general industry, housing etc.

What haven't we found yet? Medicines that can heal the sick? Foods that are drought resistant that will feed thousands? Ecotourism opportunities that create jobs in regional, rural and remote areas? Our cultural identity?

For goodness sake – and the sake of the future of our flora, fauna, biodiversity, healthy environments and the prosperity of regional, rural and remote communities – LEAVE IT BE.

Regards,

Jane Intini
