Q14 Please enter your general feedback here

We have been living in our Linden Park house for over twenty years. Because Linden Park School, all the streets in Linden Park area always busy specially during school drop off and pick up hours. With the current planning code of many houses like our one with 18 metres frontage, already so crowded without parking and traffic congestion. I would not imagine when changing to 7 metres frontage, how people can park their cars or get out from the drive way? I noticed last few years already many new houses been built and the traffic getting more and more congested. Many trees have been cut to make rooms for new buildings. Many new buildings were built next to each other without any trees or even plants, only concrete drive way and fake lawn. Because suddenly so many new buildings, very often are people with small children and their grandparents three generations living together. The original playgrounds and parklands suddenly put to service triple of the original planning population. It will cause chaos in the future. I strongly demand that Linden Park to be considered as a Suburban Neighbourhood Zone rather than a General Neighbourhood Zone.
