Introducing our new planning and development system

1. **Our Planning Vision**
   A collaborative long-term strategic planning direction for South Australia.

2. **Design in the Planning System**
   New planning rules with a focus on good design outcomes.

3. **Community Engagement**
   More opportunities for people to shape their community.

4. **Environment and Food Production Areas (EFPA)**
   Protecting our environment and important agricultural assets.

5. **ePlanning**
   An online planning system that is easy to use and understand.

6. **Decision Makers**
   Professionals making the right decisions for the right places.

7. **Rule Book**
   (the Planning and Design Code)
   One clear set of planning rules for the state.

8. **Development Assessment**
   A consistent and simplified development assessment process.

9. **Infrastructure Planning**
   Coordinated and equitable provision of infrastructure.

10. **Monitoring Performance**
    New ways to monitor, improve and share planning activity.
