Q6 Enter your feedback for Referrals

Respondent skipped this question

Q7 Enter your feedback for Mapping

Whilst we have had a good look with regards to the mapping and have not spotted any obvious error this does not mean that there won't be any once the system is live. It is the councils hope that any errors once identified will be easily fixed and at no cost to the identifying party.

Q8 Enter your feedback for Table of Amendments

Q10 Please enter your feedback for zones and subzonesclick next at the bottom of the page for next topic

Suburban Neighbourhood Zone

Whilst the use of Suburban makes sense from a city planning perspective, we would like to see this name more adequately reflect that this zone will also apply to small country towns given that it will be applied to our townships according to the Transition Tables supplied during consultation.

Q14 Please enter your general feedback here

Southern Mallee District Council would like to endorse the timing that the process has followed and the staff that have worked with us and kept us well informed during this process.

Council would also like to acknowledge that this is a significant undertaking and believe that the changes to planning system will benefit the state by ensuring that everyone is operating under the same rules.

Southern Mallee District Council is a small council with relatively limited resources. As a result we would expect that any errors and updates found after the new system commenced would be dealt with by the state to ensure that the system stays as accurate and meaningful as possible. We would like to assume that the systems to identify and report errors will be simple and user friendly and not be reliant on council resources to identify and raise any issues.

As stated in earlier feedback whilst our inspection of the preliminary maps has not identified any errors at this point, our study of these maps has not been exhaustive. We would expect that any issues that are identified are also easily fixed when new patches or versions are released.
