As a new resident of the area after completing construction of a new home on Gwynne Street, Firle 5070, impact of increased traffic volumes when introducing medium density housing to Gwynne Street, Firle 5070 is a major concern. This street is currently used as a thoroughfare to cross through from Glynburn Road to Portrush Road. Currently high volumes of traffic and congestion when also considering park cars on the road and the nearby shopping centre. Cars constantly stopping to allow traffic to pass, including beeping of horns and at times verbal arguments. Cars are currently forced to stop and give way to one another, at times observing bottleneck of traffic and in worse case scenarios, I have witnessed verbal abuse / road rage. Concerns when introducing medium density dwellings will only further increase the volumes of traffic, which will become a safety concern. Allowing medium density housing in this street is irresponsible and evidence is to be provided to model traffic volumes in this street/area to ensure current traffic volumes/pressures are not further impacted and to maintain safety to current and future residences.
