I am a resident of South Australia and I wish to live in a Tiny House On Wheels [THOW].
I plan to lease a small area of private land with no services, as my THOW will be totally off-grid and transportable.
Council planning departments’ classification of a THOW varies immensely from one council to the next - everything from being classed as a caravan to an out building, and as such, I am unable to legally reside permanently in it when parked on leased private land.
Council planners have stated that they do not posses codes to allow THOW living in their area or the state.
I know of many South Australians who either reside in a THOW (by default, illegally) or wish to do so but cannot commit to a THOW because of the placement insecurity.
The Tiny House [TH] movement is growing worldwide and will continue to do so. This is clearly illustrated by the interstate growth of TH manufacturers, TH communities and families now living in THOW.
I wish to submit to the Planning Commission that amendments to the new planning codes are MADE to allow South Australians to take advantage of this exciting and innovative form of shelter and to give councils specific planning tools to allow this to take place in a safe and legal manner.
Thank you for your consideration.
